10 August 1979

Dear Harold,

Just receives your letter of The 7th addressed to Paul and me.

Yes, of course, feel free to use my index to the HSCA Report in any way that may be useful to you. I did it for the convenience and use of all the (serious) critics. I have also done an index now to Vol. VII Autopsy and Medical evidence (but not ballistics) which you should be receiving from Paul within a few days.

I am busy reading the supplemental volumes, in which I find much interesting material.

With very warm regards, dear Harold,

As ever,

Sylvia
